James May North & Painted Recordings present: Cortex

We are excited to announce...Painted Recordings Painted Recordings and James May North host the Norwegian Jazz Cortex Cortex September 22nd at 7:00pm in Algoma, WI! Tickets $15 and doors open at 6:30.

Thomas Johansson (trp), Kristoffer Berre Alberts (sax), Ola Høyer (bs), Gard Nilssen (dr)

Cortex is a spirited combo that plays energetic jazz of the finest brand. They have been active since 2007, and have performed over two hundred live-performances and released five critically acclaimed albums. The quartet consists of Thomas Johansson - trumpet, Kristoffer Alberts - saxophones, Ola Høyer - double bass, and Gard Nilssen - drums. The band positions itself as one of the strongest additions to the Norwegian jazz scene, and the members are amongst the most sought after young jazz performers in Norway today.

“No Scandinavian group since Atomic has so powerfully addressed and remade the free jazz of the 60s like Cortex. In a country whose creative music scene is celebrated for its bold hybrids of disparate sounds, Cortex goes another way, embracing tradition in its own unique way, with a personality sketched out by the strength of Johansson’s indelible themes and four distinctive improvisational voices.”
- Peter Margasak, Chicago Reader
