Paper Transport, Inc. Reaches Milestone: Hires 1,000th Employee

De Pere, Wis. (Feb. 18, 2019) – De Pere-based employer, and for-hire truckload carrier Paper Transport, Inc. (PTI), reached an exciting business milestone this past week when its official number of employees surpassed the 1,000 mark.

Paper Transport, Inc. is comprised of professional drivers and driver support professionals, working in the Midwest, Southeast, and Southern U.S. Out of the 1,000 employees, 444 are based in Wisconsin.

“It’s the success of our employees, our people that drives me,” states Jeff Shefchik, PTI President. “This milestone is significant because we have 1,000 people coming together to support each other every day. Through everyone’s hard work, we’re now able to help provide for 1,000 families and that’s a big deal.”

PTI has humble roots that date back to February of 1990 when co-founders Roger Grimsley and Lennie Shefchik pulled the first loads out of Green Bay, WI. The entrepreneurial spirit and “get it done for the customer” attitude from the first days have served as the foundation of the culture that drives the company today.

“We are always pushing forward and doing whatever we can to be the innovators in this industry,” explains Shefchik. “Whether it’s offering new driving configurations so our drivers spend time with their families, or implementing new technology to make all of our jobs easier, we’re always looking to improve.”

This year, PTI is looking to build on the 17% growth that it experienced in 2018 through the addition of dedicated customers, further technological advances, employee learning and development, and offer even more home daily driving configurations so more drivers can be home in their own bed every night.

The PTI team can be reached at 920-617-5412, info@papertransport.com, or www.papertransport.com.
