The Farmory Update - 5/17/2019

Updates
Thank you everyone who came and supported our First Annual Herb Box Fundraiser yesterday! We raised a total of $941 and were glad to see so many new faces. We still have 10 mixed herb boxes left ($20-$35 a box) and plugs (individual plants) of marigolds, basil, and dill ($3 a plant, 6 for $15). Call 920-544-0789 or email Ryan at ryanh@nwgreenbay.org if you are interested in purchasing any and we can set up a time to pick them up. First come, first serve!
The Farmory has had a wonderful experience working with Di from Adunate Word and Design on her pro-bono design piece for us. We are so happy with how our new brochure turned out! Stop by and pick some up to share with your friends.
Upcoming Events

Upcoming Workshops

THE FARMORY

Register on Eventbrite.com!

437 S Jackson St. Green Bay
(920) 544-0789
Please join us at our upcoming workshops!

**Thursday, May 23rd from 6:00-7:30pm** - Join current Farmory Board Member Paul Ladd Jr. on Thursday, May 23rd from 6:00-7:30pm as he teach the basics of aquaponics and leads a demonstration build of an easy home system.

**Thursday, June 13th from 6:00-7:30pm** - Join Nichole Campbell, Owner and Lead Floral Designer of Petal Pusher, for an educational workshop on gardening with herbs!

**Saturday, June 29th from 10:00-11:30am** - Join Ronald Kruse of KIS Coffee and Food Ferments to learn the difference between canning and fermentation, the equipment necessary to ferment at home (yes, you too can do it!), and the health benefits of fermentation.

**In The News**

The Farmory was recently interviewed by 91.1 The Avenue as part of their Community Voices series. Listen to the interview [HERE](#).

This is a great opportunity to share the story of The Farmory with your family and friends.
Open Volunteer Positions at The Farmory!

We are looking for two new volunteers to help with our West De Pere High School Aquaponics System** on Thursdays and Fridays and one volunteer to help with our Downtown Aquaponics System on Mondays. Volunteer shift times are flexible.

Daily tasks would include: Daily farming tasks: grooming plants, watering, turning soil, harvesting, planting, etc., Recording research and observations, suggesting changes, Keeping the area clean/Putting materials back where they
belong, Working with a team to ensure health of whole “farm.”

If you are interested, please contact Allison at allisonh@nwgreenbay.org or (920) 593-3714.

**West De Pere System volunteers will need to complete an additional background check with the school district.**
