Volunteers Wanted!

Do you want to get more involved with The Farmory?

With school starting and summer coming to a close, we have volunteer position openings in the hatchery and aquaponics system. Additionally, we need a volunteer/intern to help with social media and marketing.

As the **social media volunteer**, you will create and schedule engaging posts, create graphics to help promote events, and work with staff to develop marketing goals. This position is a 3-4 hour weekly commitment.

As a **fish hatchery volunteer**, you will help monitor and care for the yellow perch, record research and observations, and perform general maintenance tasks. **Open shifts** for hatchery volunteers: Monday 5-6pm, Wednesday 5-6pm, Thursday 8-9am, Saturday 5-6pm, Sunday 8-9am.

As a **plant whisperer volunteer**, you will help groom, water, harvest, and seed plants, make observations, and perform general maintenance tasks. **Open shifts** for plant whisperer volunteers: Monday (Downtown), Wednesday (Downtown), Friday (West De Pere).
For more information, please visit our website (www.farmory.org) or Facebook page (https://www.facebook.com/Farmory/).

We'd love for you to get involved! For application details contact Patty Casady at patty@nwgreenbay.org.

I want to volunteer!

AmeriCorps VISTA Testimonials

Last week we had to say goodbye to our 2018-2019 AmeriCorps VISTAS, Ryan and Allison. We're sad to see them go but excited to see where life takes them next. If you have any hesitation about volunteering or getting more involved with The Farmory, check out what Ryan and Allison have to say about their service below.
"As I prepare for graduate studies in Madison, I know that I will always look at this year of service, not as a stepping stone, but as a launchpad. This work, this project and this team have helped me grow both personally and professionally, and solidified even more my desire to do work that is meaningful to all of our wonderful community."

-Ryan, AmeriCorps VISTA 2018-2019
"Serving as an AmeriCorps VISTA with both NeighborWorks Green Bay and The Farmory has been unimaginably enriching and informative and has truly helped me gain the perspective and skills necessary to take the next step in my professional career. Living and serving with your community is an invaluable life experience that will make you a more engaged, civically minded individual that understands the complexity of our society."

-Allison, AmeriCorps VISTA 2018-2019
Our next educational workshop is quickly approaching! Come join us for "Gardening for Health" led by Stephanie Lazzari of HSHS.
GARDENING FOR HEALTH

Featuring:
Stephanie Lazzari,
HSHS

As a part of The Farmory's 2019 Educational Workshops

September 14, 2019
10:00 AM - 12:00 PM
437 S. Jackson St
Green Bay, WI 54301

Register here:
https://www.eventbrite.com/e/gardening-for-health-tickets
69791868357
Stephanie will be talking about "Gardening for Health" with her presentation titled "Harvesting Hope." Specifically, her presentation focuses on a gardening project at the St. Mary's Cancer Center. This garden provides resources to patients while encouraging a plant-based diet. Come to learn about this amazing project and how gardening can help you maintain your own health.

Please register through Eventbrite prior to the event.

Construction Update
The siding project is moving along. Metal supports were installed to help level out the walls (they are 100 years old!) and provide a surface to attach the siding. This week the insulation was sprayed onto the wall to prevent moisture from getting trapped underneath the siding. We're getting closer and closer to having a building that looks brand new!
Thank you to the group from DePere First Presbyterian for coming to learn all about The Farmory. We are always excited to give presentations and tours to groups and/or individuals from the community.
If you or someone you know would like a tour, please contact Patty Casady at (920) 593-0763 or patty@nwgreenbay.org.

Thank you!

We greatly appreciate ALL of our volunteers! Our volunteers truly are all ages and from all walks of life. Without volunteers, The Farmory would not be in existence.
Today, we want to give a special shout-out to one of our super summer volunteers, Elliot, as he leaves us to return to school for the fall.

"I'm going back to school to study biology (botany or conservation) so volunteering at
The Farmory has helped me see what I might be doing in the future and gave me an opportunity to learn before starting my classes.”

- Elliot, West De Pere Volunteer Summer 2019

Thank you for everything you did, Elliot!
