

The heart of the YMCA's mission is to serve people of all ages, backgrounds, abilities and incomes in our community. That's why we offer financial assistance through Membership For All, our income-based membership program.

February 18, 2020

The greater Green Bay community is changing and so is the Y; we have designed our sliding fee scale to fit each family's financial situation. The Y's commitment to our community assures that financial assistance is available to those who qualify. Our programs are critical to empowering young people to reach their full potential, to improving individual and community well-being and to providing support and inspiring action in our community. Therefore, our income guidelines have been adjusted so that any family making under \$75,000/year or any individual making under \$65,000/year can qualify for the Membership For All program and become part of a community where we are all working together to be our best selves.

Membership For All is funded by donations from local families and organizations to the Y's Annual Campaign. Income-based membership gives kids, families and adults the opportunity to pay the monthly membership fee that best aligns with their household income. Those that qualify for Membership For All will also receive a free or reduced joiner fee as well as 25% off one program per participant per program session.

###

About the Greater Green Bay YMCA

In 2019, the Greater Green Bay YMCA reached an all-time high participation in programs with over 80,000 participants in more than 45 locations throughout the community. With a commitment to ensuring every person has the access and opportunity to lead a healthy and impactful life, the Y provides over \$1 million in

financial assistance and subsidies. This is made possible through a variety of grants, as well as through contributions to our Annual Campaign.

Since 1871, the Greater Green Bay YMCA has embraced the balanced strength of spirit, mind and body. We've put Christian principles into practice, and stood for caring, honesty, respect, and responsibility. We serve more than 33,000 members and remain steadfastly committed to offering programs and providing places where healthy lives and community enrichment comes alive.

Thank you for your consideration!
