## **Spunky's Paw Prints Breaks Ground on New Facility**

**Howard, WI – Spunky's Paw Prints** broke ground on a 1,500 square foot building remodel and building addition to an already existing vacant building on Thursday, March 5, 2020 at the facility's future location at 2616 Lavender Lane in Howard, Wisconsin.

Spunky's Paw Prints will operate as a shelter for rescued cats that are available for adoption. In addition, a portion of the facility will be used as a photo studio for pets, as well as a café that will offer quick-serve foods and drinks. The photo studio will be the first portion of the business to open.

The project broke ground in March and is expected to be completed and open for business by the end of May 2020.

Keller, Inc. is an award winning, single-source, design/build general contractor headquartered in Kaukauna, WI, with additional offices in Madison, Milwaukee, Tomah and Wausau. As 100% employee-owned, they are leaders in the construction industry specializing in new construction, remodel, retrofit, and reroof projects. They have the staff and expertise to take projects from the early phases of design through the construction process to ensure that the project is completed on time and within budget.
