Prevea Health now offering free testing in Green Bay area to anyone with or without COVID-19 symptoms

Green Bay, Wis. – Prevea Health is now offering free COVID-19 testing in the Green Bay area to anyone who would like to be tested, whether they are experiencing symptoms of the virus or not.

"This virus has shown us that some who are infected do not experience any symptoms," said Dr. Ashok Rai, President and CEO, Prevea Health. "As our region's percent positivity rate of COVID-19 continues to be one of highest in the nation, we must take every step possible to control the spread of this virus. With new guidance and additional resources from the state health department, we are now able to offer free testing to anyone at our Green Bay area testing sites until further notice."

Those who would like to be tested must sign up on Prevea's online patient portal, *MyPrevea*. You do not have to be an established Prevea patient to set up an account on *MyPrevea* or to access a free test. *MyPrevea* can be accessed at www.myprevea.com or downloaded as an app on Apple or Google Play. It takes just minutes to set up an account, complete a short assessment, and register for a test at one of the Green Bay area testing sites. (Locations and instructions are provided upon registration).

"There are a limited number of tools available at this time to stop the spread of this virus, and testing is one of them," said Dr. Rai. "We encourage anyone who would like to be tested at this time to please do so, so that if you are positive, we can provide you the knowledge you need to prevent infecting others. In addition to getting tested, please also continue to avoid large gatherings, do not gather with others from outside your household when possible, wear your mask and remain vigilant about hand hygiene."

COVID-19 test results are available within 2 to 4 days on the patient's *MyPrevea* account which is safeguarded to ensure patient privacy and confidentiality.
