

## From Baker to Website Developer

GREEN BAY, WI - Packerland Websites welcomed a familiar face to its team. Website developer Adam Jeanquart, Packerland Websites' summer intern in 2020, rejoined the team as a website developer. Adam earned a Website Developer Associate Degree in 2020 at Northeast Wisconsin Technical College. In 2019, he earned an Associate Degree in Software Development.

### Talented Website Developer

"Adam is a great addition to the Packerland Websites team," said Bill Koehne, owner of Packerland Websites. "He showed a lot of potential during his summer internship and now has the opportunity to build a career as a top-notch website developer. We're happy to offer our clients the talents of Adam and his teammates."

### Designing Exquisite Websites

Before joining the world of technology, Adam worked as a baker in Luxemburg, Wisconsin. As a website developer, he enjoys working with clients to make exquisitely designed websites, comparable to well-iced cakes. When he develops a website, Adam has the clients and the clients' audience in mind.

"I try to look holistically at what clients like and work with them as much as I can to satisfy their needs," he said.

### Down-to-Earth Personality

Adam lives in Luxemburg and enjoys playing cards and board games, reading, watching movies and shows with family and friends, and doting on his family's puppy.

### Contact Us About Internships

Packerland Websites is passionate about giving the next generation of website developers an opportunity to hone their talents in a real-world setting. To learn more about internship opportunities with [Packerland Websites](https://www.packerlandwebsites.com) or website development in general, contact Bill Koehne at 920-826-5901.
